Dr. Finch enjoys a state wide reputation, among the profession and the Public of Indiana, where for more than Forty Years he has devoted his entire time to the Study, Treatment and Cure of Chronic Diseases. The Doctor has had wonderful success in his chosen work, that of curing chronic sufferers, Men, Women and Children. The Patients he has restored to Health after they had given up all hope of being Cured are numbered by the Thousands. He is a kind, generous, democratic gentleman to meet, of high scholarly attainments, and dignified personality. Coupled with a Fatherly interest, in all who seek his advice. He does not take a Patient for Treatment unless he can foresee a Cure of the Case. The most commendable feature of his work, and one that appeals to the ordinary sick person, is the fact of his charges being as reasonable and moderate as to make it within the reach of even the very poor. At no time do the charges amount to more than \$7.00 a month or about \$1.50 a week. He gives his own medicines, and there are no extra Charges. It takes him never more than from four to six Months to Cure a Case under Treatment. All Cases, even those who have been given up as incurable or hopeless, have been Cured and restored to perfect health by this Brilliant Physician and the wonderful methods he employs.

If you want to meet him and have him examine you, go to see him, and talk the matter over with him. It will cost you nothing if he does not put you under treatment. If he takes your case, it will cost you a very small sum to get well.

*Remember the Date and come early.

Note—The above mentioned charge of \$7.00 a month refers to the cost after the first month. The first month charge varies from \$12 to \$25 according to the case.

Old Negro Receives One Dollar for Every Cent He Collected From Wealthy Man.

"The shrewd waiter will accept a tip, no matter how small it is, and pretend that he is satisfied," said a hotel manager yesterday. "When I hear of persons giving extraordinarily small tips it reminds me of an old negro waiter we used to have at Palm Beach a few years ago. His name was Winfield Scott."

"A wealthy but eccentric New Yorker arrived at the hotel early in the season, and Scott took charge of his table. He took his three meals at the same hours each day. At the end of the first he solemnly handed the waiter one cent. Scott was wise, so he bowed and showed his teeth and said: 'Thank yuh, suh.' The next meal the same thing happened, and so on to the end of three months, when the visitor was about to leave. Scott waited on him with the greatest punctiliousness at every meal and never hinted that the tip he got was not perfectly satisfactory."

"After he had finished his last meal the visitor said to the waiter: 'Scott, how long have I been here?' 'Jes' 90 days, suh,' was the answer. 'I have given you something after every meal, haven't I?' 'Yes, suh.' 'How much does it amount to?' 'Scott told him. 'Have you got all those pennies?' the visitor asked."

"Scott said he had, and the visitor told him to bring them. Scott returned with a bag of pennies and handed them over."

"'I'll take them,' said the man. 'Now this is yours,' and he handed over to the waiter \$90."

DOCTOR'S FEE IN JAPAN

Physician Receives a Present of as Much as Patient Can Afford.

A Japanese doctor never dreams of asking a poor patient for a fee. There is a proverb among the medical fraternity in Japan: "When the twin enemies poverty and disease invade a home, then he who takes aught from that home, even if it be given him, is a robber."

"Often," remarked a recent lecturer on "Life in Japan," "a doctor will not only give his time and medicine free to the sufferer, but he will also give him money to tide over his dire necessities. Every physician in his own dispenser, and there are very few apothecaries' shops in the empire."

"When even a rich man calls in a doctor he does not expect that he will receive a bill for medical services; in fact no such thing as a doctor's bill is known in Japan, although nearly all modern practices are in vogue there. The strict honesty of the people does not make it necessary for the doctor to ask a fee. When he has finished his visits to the patient a present is made to him, just as much as the patient can afford. The doctor smiles, bows, thanks his patient, and the transaction is settled."

Quartz Mills in Alaska.

Alaska has produced more than 200 million dollars in gold since 1898. So far only placer gold has been mined, except at Treadwell; but new quartz mining has assumed first importance, and quartz mills are going into Alaska in great numbers. For more than a decade the trail to the interior was lined with weary men carrying their ladders and stumbling along over rocky ledges now found to contain more gold than the distant placers. As the great quartz mines in the Sierra Nevada succeeded the placer camps of California, so the quartz mines of Valdez are succeeding the famous placers of the interior. There is no healthier, happier nor more promising prospect for a young man of energy than the quartz ledges of Alaska.

Chauffeur as Critic.

"Dramatic critics could take a lesson from taxicab drivers in the art of flouting a play," said a western man. "In addition to their capability they have a peculiar opportunity for exercising their talent. The other night I told a chauffeur who had driven us to a certain theater that he might call for us and take us home. 'Very well,' said he. 'About what time? At the end of the second act?' 'Why at the end of the second act?' I asked. 'I guess the rest of the play is no good,' said he. 'Anyhow, a good part of the audience goes home then.'—New York Sun.

Rushing for Trains.

Mrs. Charles Whitney, who lives in Overbrook and whose husband comes to town every morning called the maid yesterday with rather excited direction. "Oh, Sarah!" she said, "I hadn't noticed how late it is. Go upstairs and tell Mr. Whitney to hurry or he'll miss his train."

"I have called him," Sarah answered proudly, "and he says, ma'am, that if I puts the grapefruit just outside the door and the chops on the top step and the rolls and coffee on the landing he can catch the 8:10 train."

Land of the Free.

Stranger—So this is a real, live burg, eh? Citizen (of Goshen)—You just bet it is! Why, we've already collected a fat fund to encourage aviation parties to land here! Stranger—Clever idea—what inducements are you offering? Citizen—Free landage, free gasoline, and the freedom of the city!—Thus treated Sunday Magazine.

"Foley's Honey and Tar is the best cough remedy I ever used as it quickly stopped a severe cough that had long troubled me," says J. W. Kuhn, Princeton, Neb. Just a quickly and surely it acts in all cases of coughs, colds, lagrippe and lung trouble. Refuse substitutes. Sold By All Druggists.

VOICE OF THE PEOPLE.

Would License the Drinker.

There are two classes of people who purchase and drink intoxicants at a saloon; namely, those who become drunk and disorderly and those who do not. In the opinion of the writer the statutes ought to recognize this classification. The first mentioned class, though not numerous as compared to the whole body of drinkers are always a nuisance, frequently a menace, and sometimes a very great danger to the peace and good order of society and ought to be suppressed.

They should make it mandatory on the circuit court or other competent local authority to issue a drinker's and purchaser's license to applicants who have reached the age of twenty-one years and who have not been drunk and disorderly within one year preceding the date of application. A license fee of one dollar should be charged for the printed application blank, which should be endorsed with the signature and seal of the court should not refund the fee to a license. A period of one month should elapse after the date of the application before the issuance of the license, and in the meantime the application should be published in the local newspapers.

A metallic license check, to be carried in the pocket, should be issued along with the license, which should run for one year but which should be immediately revoked if the party holding same should become drunk or disorderly.

A register, similar to a hotel register, except that the names should be furnished to each saloon at their own expense, and should contain the personal signatures of those who hold a license, together with the date of such license. The registers should be open to the inspection of the public. If a saloon keeper or his bar-tender knowingly and wilfully sells to a person who does not possess a license to purchase drink, then his own license should be immediately revoked.

O. C. Harford

A few reasons why the Plymouth people want the saloon.

Because of its moral uplift in the community (?)

Because of its purifying effect on politics (?)

Because its patrons get so much value for their money (?)

Because drinking helps one to get a good job and keep it (?)

Because it makes business—for the courts (?)

Because drunkards—the saloon's finished product—make such good husbands, and loving fathers (?)

Because all right minded fathers and mothers pray that their boys may be come saloon keepers (?)

Because it raises public revenue by a tax upon what the poor people drink so that the rich may dodge taxation on what they possess. And many other good (?) reasons too numerous to mention.

MERELY OBEYING ORDERS

Police of Mexico City Take Every Instruction in a Literal Sense.

Mexico City is possibly the best policed metropolis in the world, but its officers, while vigilant, take every instruction given them in a literal sense. They will arrest anybody or anything that violates a city ordinance.

A short time ago, says a New Yorker, who recently spent some time in that city, there was a collision between two automobiles, one of the machines being so badly damaged that it had to be left at the place where the accident occurred. The persons occupying the machine were promptly bundled into the auto which was able to proceed and the entire party went to the police station.

But that did not excuse the broken car. It was formally arrested on the spot and an officer detailed to see that it did not get up and limp back to its garage. By some chance the broken automobile was forgotten for two days, at the end of which time the police captain discovered that he was shy one gendarme. Investigation discovered the gendarme asleep in the machine, where he had camped out ever since charged with its care. And it is very cold up on this Mexican plateau at night, as Mexico City is more than a mile above sea level.
